**Member of:**

**ComplyWorks and ISNetworld**

Whether it's sand & gravel, landscaping services, snow removal or sanding, Twin River Aggregates in Whitecourt is an ideal option.

With over 15 years experience and conveniently available 24 hours a day seven days a week, a call to Twin River means talking directly to a dispatcher or manager.

Twin River is able to offer a wide range of landscaping services. From bigger projects like gravel hauling and grading to decorative rocks, mulch, premium garden mixes and topsoil that can be delivered or picked up by the customer.

Jenn Foss, the manager at Twin River, said they are able to offer a convenient and competitively priced snow-removal service.

She said that they have several pieces of equipment ranging from skid steers to larger front end loaders to clear snow, load and haul the snow to a location in town and then sand the area. Because Twin River is able to do this all in house, Foss said they save on subcontracting costs, those savings they are able to pass onto the customer.

Whether it's a two car driveway that needs plowing or a massive commercial parking lot, they do it all. They also have two types of sanders available. A smaller unit for parking lots or private driveways, and a larger tandem unit for gravel areas like lease roads, log haul roads and commercial lots that require a larger type of sanding material.

When the snow melts, Twin River is also a provider of some of the highest quality topsoil around. It's a completely screened material free of all rocks, roots and peat moss.

Other services they provide include, power sweepers to sweep up dirt and gravel in the spring, hot shot services, grading, and 2 gravel pits close to town with various truck and pup units to haul material made with their own crushing equipment. Twin River also has their own picker truck capable of handling up to 2.5 tons, if a customer requires something bigger, Twin River can arrange that through their parent company, Bohn Petroleum Services Ltd. who can supply pickers up to 45 tons and cranes up to 100 tons.

Foss said that Twin River's primary goal, regardless of whether it's a private or commercial customer, is to ensure satisfaction.

*"I like to make sure we take care of our customers." She said*

Twin River is also very involved in the community. They sponsor a minor baseball team every year as well as make donations to the Fish & Wildlife and various other auctions through out the year.

Those looking for Twin River's services can call them at **780-706-3388** or stop by at 5809-53rd Ave to see their display of products available. Look for their new website coming online this spring!
