Wide Range of PVF Products

At Wolseley Industrial, we pride ourselves on being an application-oriented, problem solving organization. As a specialized industrial products stockist and distribution company, Wolseley Industrial carries a wide range of both commodity and special service products to best meet its customers' needs. Large and small businesses in oil and gas, petrochemical, pulp and paper, mining, water and waste management, and power generation industries count on Wolseley Industrial's responsive service.

Industrial Valves

Wolseley Industrial (previously **Meridian**) is a leader in industrial valve supply in Canada and has achieved exclusive, master or preferred distributor status with manufacturers of recognized, high quality products. Wolseley Industrial stocks an industry leading inventory of both commodity and specific applications valves in a wide range of sizes, materials and pressure classes.

Specific Application Valves

Wolseley Industrial also stocks valves designed with specific features and proper metallurgy to provide proven solutions for tough applications. Applications include: molten sulphur, acid gas/tail gas service, pulp mill liquor service, pump and compressor discharge, high temperature/abrasive applications, pipeline pigging, cryogenic applications, high pressure steam and hot water applications, autoclave operations and other difficult services.

Valve Actuation

Wolseley Industrial provides rapid turn-around valve actuation solutions and will customize its industry leading valve product range to meet its customers' actuation needs. Actuation products include electric actuators, pneumatic and hydraulic actuators, and control accessories.

Pipe, Flanges and Fittings

Wolseley Industrial sources PFF products from reputable, established global sources. Our quality assurance criteria for qualifying vendors is rigorous and extensive, focused on the vendor's quality programs and compliance to industry standards, manufacturing standards and ability to provide a dependable source of supply.

Pipe, Fittings and Flanges

Wolseley Industrial supplies Pipe, Fittings and Flanges in support of your project and next day needs.

Pipe Manufacturers

Bristol

Support in the Field

In addition to the technical services available including specification review, installation and maintenance information, drawings of equipment and assemblies, product testing, documentation support, expediting, valve tagging and product traceability, Wolseley Industrial also offers a range of services to support your activities in the field.

Currently Wolseley Industrial offers:

- Valve Services
- Valve audits
- Steam audits
- Power energy audit
- Steam trap surveys

Valve Services

Wolseley Industrial is an innovative and customer-oriented organization that provides advanced technical and management services for enhanced valve performance. Quality products, extensive expertise and value-added services are a part of Wolseley Industrial's commitment to deliver forward-thinking solutions to meet your valve application needs.

Wolseley Industrial offers total valve management which includes valve supply, automation, inventory management, surplus valve management, valve surveys, and technical advice.

With one of the largest selection of valves and automated valves in Western Canada, Wolseley Industrial is able to reduce valve delivery time; hence, customers in the field will be able to reduce their down-time and decrease the costs associated with valve replacement.

Wolseley Industrial offers not only valve supply, but also comprehensive automation and valve services. These services include, valve automation, refurbishing and repair, both in-shop and on site; valve storage and inventory management; actuation and environmental compliance solutions; and performance reporting.

Wolseley Industrial's Valve Services offers a complete range of valve services including:

Cost Savings

- Surplus valve sales
- Environmental compliance
- Valve exchange program
- Trouble shooting
- Valve refurbishing
- 24 hour field service

Time Savings

- 24 hour field service
- Valve automation

Management Services

- Performance report
- Valve storage
- Inventory management
- Valve and actuator repair

Emission reduction

As concern for the environment increases throughout government, industry and the public, environmental compliance is fast becoming one of Wolseley Industrial's most important services. Recovering product previously vented to atmosphere is an extremely effective method for both reducing costs and reaching emission reduction targets. Wolseley Industrial possesses experience and expertise in the reduction or elimination of emissions and is well positioned to deliver cost-effective environmental applications.

Steam Specialties

Wolseley Industrial provides a complete offering of steam traps, valves, regulators and steam strainers to support your steam system. We also provide system audits that play an important part in maximizing the effectiveness of your systems while minimizing energy loss.

Steam System Audit

Our complete steam system audit includes steam trap application and testing, pressure regulators application and testing, boiler load calculations, steam system piping, steam accessories placement and testing, and a complete report on our findings.

Plant Energy Audit

Our associates survey your facility to gather pertinent information in order to create a comprehensive report with recommendations to cut energy costs. We can also provide a payback analysis on any equipment that is needed.

Steam Trap Surveys

Our comprehensive steam trap surveys include testing traps with state of the art equipment, locating "missing" traps, a complete report on our findings and recommendations to address any problems identified.
