With over 25 years of service, Platinum Grover Int. Inc. is one of Canada's largest stocking pipe and piling distributors and one of Canada's best "FIRST-CALL-SOLUTIONS" for customers in need of pipe and piling.

Located in Calgary, Alberta, Canada, Platinum Grover specializes in structural pipe and piling. We stock a wide selection of inventory ranging in size from 2 3/8" to 72" O.D. and in a variety of wall thicknesses. In addition, we stock a large inventory of pipe in various specific lengths. With new material arriving every day our large inventory allows us to immediately fill orders.

Our vast in-stock inventory, our cutting and CWB W47.1 certified welding facilities, as well as our ability to fill customer's specific orders by rolling pipe with our global partners in the steel industry have made Platinum Grover an industry leader in the structural pipe and piling market. We pride ourselves in providing piling for some of the largest projects in Canada.

Platinum Grover supplies structural pipe and piling for driven foundations, screw piles, fencing, rat holes, auguring, water wells, road crossings and casings, mining, horizontal directional drilling, tunneling and many more applications.

Products

Platinum Grover stocks and supplies new and used **pipe and piling in sizes between 2 3/8" and 72"**. We stock pipe with wall thickness ranging from .155" up to 1" in spiral, straight seam or seamless pipe. Pipe specifications include ASTM A252 Grade 3 and 2, API 5L B, A53, A106 and CSA.

We can provide piling shoes, tips and caps for specific application as required. Our products meet the demanding requirements of the piling industry. We take pride in our products and show our pride through our service.

Services

Platinum Grover supplies new and used structural pipe and piling to markets across Canada and the United States.

Platinum Grover has onsite cutting and CWB certified W47.1 welding services to provide pipe and piling to specific lengths. Through our associations and relationships we can expedite your galvanizing requirements and manage your order-in project work from start to finish.

As a value added service we can arrange transportation to meet your delivery requirements.
