Ex-Fence

Ex-Fence (Canadian Patent #2,433,743, U.S. patent pending) is a modular, stackable, free-standing fencing system that was designed by an operator with over 20 years of oilfield experience. The design is based on ease of storage, transportation, installation and reconfiguration.

The Ex-Fence system can be configured geometrically in any shape from a circle to a triangle, then can be reconfigured, if required, to accommodate changes or expansion to the well site.

Ex-Fence gate panels have a full gate opening - there are no sharp protrusions to catch and tear expensive coveralls.

Stackable

Free Standing Panels

Easy Assembly

Time/Cost Saving

For more information contact:

FREE STANDING

Panels stand independently allowing for easy assembly.

STACKABLE

Panels stack neatly, allowing for ease of transportation and storage.

EASY ACCESS

Panels are connected using pins so access for servicing is quick and easy.

FLEXIBLE SIZE AND SHAPE

FULL GATE OPENING NO MORE TORN COVERALLS

The Ex-Fence panel system is the most cost effective to transport, store, install and configure of any fencing system on the market. It is also more durable than the typical fencing system as the triangle shape of the legs provides exceptional strength and will not bend or be driven into the ground.
