## COMPANY SUMMARY

## COMPANY SERVICES

### SPECIALIZING IN

K&R Services specializes in all aspects of oilfield; maintenance, construction and vessel repairs. Oilfield clients can feel confident that any service needed will be addressed promptly and efficiently with experienced management that have worked in the field. This prior oilfield knowledge makes our management better leaders.

K&R Services takes pride in getting the job done as efficiently and safely as possible. We understand the importance of getting the job done as quickly, cost efficiently and environmentally safe as possible.

Safety is always prioritized to protect everyone involved. Any project big or small, K&R Services will have the tools and skilled manpower ready.

### PIPELINE & FACILITY CONSTRUCTION

Experienced K&R Services' personnel and management are knowledgeable in all aspects of pipeline construction, including trenchless. K&R Services has installed single to quad pipelines, 2in to 8in. Facility construction from pile driving to hauling of buildings and tying in, we can do it all. Our experience is from small meter skids to larger production facilities.

### SITE RECLAMATION, ABANDONMENTS & PIPELINE DIGS

K&R Services ensures contamination and spills are cleaned up safely and effectively to minimize the environmental footprint left behind.

### GENERAL MAINTENANCE & VESSEL REPAIR

K&R Services has completed repairs successfully on vessels from 12in to 60in. Our service crews do a variety of general maintenance to pressure piping. Planned shut downs are organized and safely handled.

**SAFETY  
ORIENTED**

K&R Services is a safety orientated company that prides itself on getting the job done as safely as possible. ISNetwork as well as ComplyWorks show our registration and our good standing. Maintaining our COR with ACSA is very important to us. K&R Services' safety program shows the dedication of management to provide and enforce a safe work environment and moral for everyone. Safety starts at the top, our management team displays safety etiquette and enforces it. Monitoring and maintaining certification of safety and training ensures compliance.

Hazard analysis, inspection, investigations, meetings and equipment maintenance are completed and documented in a timely manner. Safety is a team effort shared by all personnel. K&R Services has created critical safe work practices and procedures that are included in our safety manual, ready and accessible on all work sites. Legislation is referred to when new procedures are required. These practices and procedures and their review ensure that even the newest employee of K&R Services knows how to do the job as safely as possible. In house training such as, WHMIS, TDG, Orientations and other specialty courses are done to make sure our workers have as much knowledge as possible before they start work.
